

# AboveView™ Safety Helmet

Bullard AboveView™ features a see-through visor that allows workers to see hazards overhead. The patented AboveView™ Full-Brim helmet is designed with a wide brim for increased protection from the elements and comes equipped with accessory slots for a variety of attachments.

- AboveView™ increases your upper peripheral view by more than 50%

- Replaceable see-through visor available in clear, grey-tint, and yellow tint allows wearers to see hazards overhead
- Suspension sits below the “nape” portion of the user’s head ensuring a secure fit and lessening the possibility of the hat falling off while working.

- Accessory slots for a variety of attachments

- Customizable in all Bullard standard colors, striping and logos using BuildYourBullard. External Link. Opens in new window. configurator

- Optional two-point non-elastic with chin cup (NES42CB), Three-point non-elastic (ES3-DUO)

- Two-year warranty
